Signature Series

.....

2007 RIESLING

The Signature Series is very much a reflection of the Red Mud winemaking style and philosophy. Great wine is grown and to this end Richard has selected the finest fruit from individual vineyards to produce a wine worthy of his signature.

The 2007 vintage is made from fruit specifically selected for its classic characters from the Southern Fleurieu region which is just south of the Adelaide Hills in South Australia.

The Signature Series Riesling is made with an eye to the classic Australian style; fragrant, crisp and finely balanced with great length. The cooler climate in the Southern Fleurieu imparts both citrus and floral notes that combine to create a delightful and unique bouquet of citrus blossom. Simple yet careful winemaking allows the wine to retain its varietal identity while reflecting the distinctive nuances of its home; the Southern Fleurieu.
